

RPCV Adopt-a-Project Program

After completing service and returning home, some RPCVs would still like to continue making a difference in Nicaragua.

Our RPCV Adopt-a-Project Program lets them lend a hand. We play match-maker between PCVs with projects, and RPCVs willing to make a one-time personal donation. Once the match is made, you and the RPCV can work out the details yourselves.

Write a good project description, funding needs, and target group, and send it to us. If it seems like a worthwhile project we will submit it to the RPCV group and see if it gets "adopted."
